

Template for Abstract to PSAS'2014

Author1^a and Author2^b

^a *Affiliation1*

^b *Affiliation2*

This is a template for an abstract for the PSAS'2014 meeting. We kindly ask you not to use any new definitions or packets.

Since we are going to combine all contributions into a single file we kindly ask you to follow a special agreement on use of any labels and file names. All labels (e.g. to references (cf. [1])) and file names must start with first three letters of the name of the (co)author who submit the contribution. We use **tmp** for this purpose.

The text must be of one page with margins fixed in this template. It may contain tables (cf. Table 1) and pictures (cf. Fig. 1).
